Making the connections.....

Thank you for your interest in advertising on **www.emigreat.com**

www.emigreat.com is a one-stop information website for anyone emigrating to, relocating across or vacationing in Canada. The website provides information and links to companies and services across Canada.

www.emigreat.com was officially launched online in May 2007. Every year around 265,000 people relocate to Canada through the immigration process and these people are all **potential clients**.

We also advertise our website and services in the monthly Emigrate Canada newspaper and we will be advertising in the annual Emigrate magazine with a print readership of 150,000.

We have been involved with "Live Webcam Seminars" at the Emigration shows across the UK and we have participated in newspaper interviews in both the UK and Denmark talking about our own emigration experience and advertising our website and the services it provides. We also participated in "The Emigrate Challenge" DVD which followed six families emigrating to different places around the world.

The **www.emigreat.com** database will benefit you, the advertiser, by linking you up with prospective Clients that require your services. It will allow them to make contact with you and for you to establish a relationship with them before their arrival. This will give you a valuable foothold in offering your services to this clientele group.
